When I for about a longth an half out of the ferry slip the dood tile carried the Colden a half out of the ferry slip the dood tile carried the Colden peter view. I was in the net of putting my wheel to state located to steady the Colden, when I made the Andes on m larhoard new. I put the wheel hard to port to avoid the collision. The Andes was no close on to me I could not sto without certain destruction to the Colden and parsonger. The Andes struck the Colden midships, half the wate wheel, carrying away the king post and a part of the Colden was stopped immediately. When the handes struck the Colden she was nuder such headway the she brought the Colden completely round. I make the prompt the Colden completely round. I make the public.
